The HathiTrust Government Documents Initiative Planning and Advisory Working Group

HathiTrust Membership Meeting
Washington D.C., October 2014
Develop an overall strategy for building a comprehensive public domain corpus of U.S. federal documents in HathiTrust

Recommend investments as needed to pursue the initiative

Advise the Board on relevant policy issues

Provide oversight and guidance as the project develops
Working Group Members

Prue Adler (ARL)  
Ivy Anderson (CDL)  
Joni Blake (GWLA)  
Kirsten Clark (UMN)  
Rick Clement (UNM)  
Elizabeth Cowell (UCSC)  
Mark Phillips (UNT)  
Jon Rothman (UMICH)  
Judy Russell (UFL)  
Mark Sandler (CIC)  
Barbie Selby (UVA)  
Jeremy York (HT)
The Existing Collection

568,219 documents as of September 2014

- 441,096 from the CIC, working in conjunction with Google
- CIC libraries and the University of California will continue to supply
- HT Registry Initiative
- Catalog analysis
Near-Term Activities

1. HathiTrust to continue to build the Registry
2. Provide regular updates on the existing corpus
3. Member libraries (esp. CIC and UC) to continue to supply digital content
4. Enlist the support of docs librarians to analyze, organize and promote the corpus
5. Pursue partnerships with gov’t. agencies for records and content
6. Identify existing complementary projects and pursue partnerships
Intermediate-Term Actions

7. Hire a project manager
8. Operationalize the recommendations of the report
9. Address uncataloged content
10. Seek out already digitized content
11. Carry out quality assurance and deduplication
12. Enhance search and discovery options
13. Include content beyond that distributed by GPO

14. Enhance HT functionality to include rich-format content

15. Revisit access policies for non-member downloading

16. Develop a communication plan to promote the corpus
Next Steps

PSC to review, revise and rebut

Board to determine the extent of investment that is warranted

Working Group members to:

• Conduct an environmental scan of documents curation activity in libraries, agencies and beyond

• Form sub-groups to flesh out specific recommendations—e.g., cataloging, enhancing functionality, outreach to potential content partners, outreach to users, etc.
