

HathiTrust Digital Library: Enrich Your Research and Scholarship

What is HathiTrust?

It's digital library open to the world. It's a partnership community of over fifty institutions and consortia within the United States, including the CIC and the Library of Congress, and Universidad Complutense de Madrid. The University of Michigan contributes material and manpower.

Brings together materials digitized by Google, the Internet Archive, Partner institutions, and other commercial digitization schemes. Unlike Google Books, it includes government documents and reports, materials published in 1923 and later that are in the public domain or for which copyright holders have granted permission.

Current Statistics

8,635,153 total volumes
4,736,278 book titles
210,081 serial titles
3,022,303,550 pages
